**FROM HUMBLE BEGINNINGS,
BELGARD IS PROUD TO CELEBRATE
25 YEARS OF LEADING THE
HARDSCAPES INDUSTRY.**

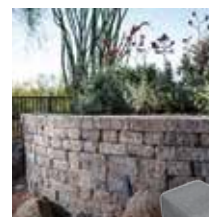

Our story begins in the 1970s with a focus on innovation and providing customers with exceptional products and services. We grew by partnering with and acquiring small family businesses across North America, each addition enriching our brand and building a legacy of entrepreneurship and commitment through our local representation.

Belgard's rich heritage guides us still today as we remain focused on innovation and excellence for our customers. We have and will continue to Pave the Way for the industry – for the next 25 years and beyond.

ESCAPE TO YOUR BACKYARD

Today's outdoor spaces are more dynamic than ever, designed to complement the way you live and your aesthetic.

Whether it be a chic lounge area for entertaining, a green-filled hideaway that amplifies your connection with nature, or a clean & minimal space for family fun the Outdoor Roomscape is your gateway to paradise at home.

DO MORE WITH LESS

Design doesn't have to be loud to make a big impact. The "less is more" philosophy sharpens the focus on what really matters in your design.

A backyard with a view needs only two chairs by the fire to complete a rustic design that coincides with nature.

Using a pop of color around your front walkway, like a bright colored door, is a little change that adds big curb appeal.

Keeping landscaping simple not only reduces the amount of time a homeowner spends on yardwork but also places focus on their investment.

ENTANGLEMENT WITH NATURE

In the ever-expanding age of technology, many rising trends center on the health benefits of incorporating design elements that help keep us connected with the natural world. This can be done both texturally and by integrating organic elements like water, fire, wood or plant life into the hardscape design.

LIVE LIFE IN COLOR

INTRODUCING BELGARD'S COLOR OF THE YEAR

Accents of **Terrarium** complement the full range of Belgard colorations — whether on an urban rooftop or at a rural retreat, a suburban backyard or a seaside terrace. Signifying growth, vitality, and renewal, hints of this green in accents and decor help create your biophilic paradise at home.

NOTE: For paving slab applications, some contractors prefer to pre-compact screeded bedding sand with a small plate compactor. If pre-compaction is done, care must be taken to leave no indentations in the bedding sand surface from the plate compactor. These can be removed by screeding the surface to create a thin layer (6 – 10mm) of uncompacted sand (also known as fluffing). Paving slabs do not interlock and therefore do not spread loads to their neighbors via joint sand. Given this condition, there is no requirement to force bedding sand into the bottom of the joints when compacting the units on uncompacted bedding sand, as is done with interlocking concrete pavers. Compacting large slab units could lead to unnecessary breakage, so many times contractors may choose to use a mallet to tamp the slabs into place once laid. Slabs do not meet the standard compressive and flexural strengths of interlocking concrete pavers, therefore, Belgard® will not be responsible for breakage to Moduline Slabs caused by compaction.

OPTIONS, VISIT
BELGARD.COM/LIGHTING

The background features a series of concentric circles. The innermost circle is solid light gray. The next ring is a dashed gray line. The third ring is a solid dark gray line. The outermost ring is a dashed gray line. Various geometric elements are scattered around: small solid dark gray circles, some with concentric circles inside them, and small solid dark gray squares. Some of these elements are connected by thin dark gray lines, some of which are horizontal or vertical, while others are curved. Arrows are also present, pointing in different directions, suggesting a flow or process. The overall aesthetic is clean, modern, and technical.

INSTALLATION INNOVATIONS

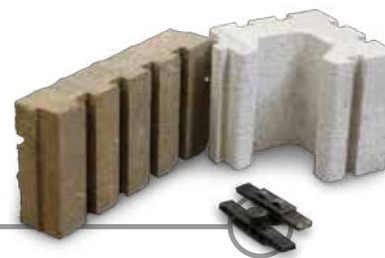

PRODUCTS THAT MAKE
INSTALLATION EASIER

Belgard® offers several products designed
to make installation easier and more
efficient. Why spend more time and money
when you don't have to?

TANDEM® MODULAR BLOCK

goes higher with a smaller footprint

- Design flexibility and increased stability during installation.
- Solution for job sites with limited space
- Go higher by connecting multiple blocks to reinforce without geogrid
- Easily construct reinforced corners by connecting multiple blocks
- One all-purpose plastic connector for columns and retaining, freestanding, setback, corners and curved walls

Get back to nature with an IRREGULAR EDGE

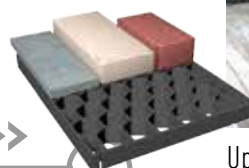

- Large, dramatic scale that mimics natural stone
- Features a range of natural colors and blends
- Irregular interlocking system that utilizes a no-repeat pattern

BELGARD ELEMENTS™

make a big impact with little effort

- Pre-built modular design arrives on pallets for easy install on-site
- Saves time and money; most can be installed in one day!
- Made to complement Belgard pavers and walls

Upgrade your installation with STONEDECKS

- Create ground-level or elevated stone decks on wood or metal joists.
- upgrade porches, patios, pool decks and more

NOCO POLYMERIC SAND

as a mortar joint alternative

- Compressive strength where compaction is not possible
- Stays flexible and responds to ground movements that could cause the joints to crack or damage the stones.

Build a solid foundation with U START BASE BLOCK®

- Universal base course for landscaping walls
- Promotes cost savings and installation time efficiency

HOW TO
CARE
FOR YOUR
PAVERS

MADE *for* LIFE OUTSIDE

EFFLORESCENCE

[ef-luh-res-uh ns] *noun*

1. a white haze created by a chemical reaction that occurs when the lime or water soluble calcium oxide produced by cement reacts with water.
2. a natural, reversible byproduct of hardened concrete.

If efflorescence does occur, it can be removed with cleaners specially made for concrete pavers.

Careless or improper cleaning can result in damage and discoloration to the concrete paver surfaces. Contact your Belgard dealer or contractor for further information about appropriate, commercially available cleaners.

FOR BEST RESULTS, WAIT 60* DAYS BEFORE SEALING TO ALLOW THIS PROCESS TO OCCUR.

ROUTINE CLEANING

1. Use a stiff bristle broom and garden hose to scrub and clean the pavers.
2. **HIGH TRAFFIC ZONES** Add in some detergent to the water mix to dislodge dirt from the surface.
3. Scrub with push broom and rinse with garden hose.

REMOVING OIL STAINS

1. Wipe excess oil from the surface and apply liquid detergent as soon as possible.
2. Allow it to soak for several minutes, then wash with hot water.

Several treatments may be necessary for particularly stubborn stains.

Cleaners specially made for removing oil stains from concrete pavers are recommended.

PREVENTING WEEDS & ANTS

YOU'VE GOT OPTIONS

1. Remove by hand or with herbicides.

Use with care so that adjacent vegetated areas are not damaged opt for a biodegradable product that won't damage other vegetation or pollute water supplies

2. Apply a sealer over the entire paver surface and let cure.

SNOW & ICE REMOVAL

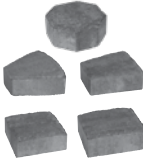

Concrete pavers offer outstanding freeze-thaw resistance.

1. Shovels or Plows
2. Electric or liquid snow-melting systems under concrete pavers.

Ask your Belgard dealer or contractor about Snow-melting Systems for Interlocking Concrete Pavements.

PEACE OF MIND, GUARANTEED

LIFETIME TRANSFERABLE LIMITED WARRANTY

Oldcastle® APG, Inc. ("Belgard") is proud to inform you that all of our interlocking concrete paver and retaining walls ("Products") meet and/or exceed the requirements of ASTM C-936 and ASTM C-1372. Belgard® guarantees its Products against these standards for the lifetime of the Product defined by ICPI. This guarantee does not apply to splitting, chipping or other breakage that could be caused by impact, abrasion or overloading. This warranty is transferable. The original proof of purchase is required.

This warranty is only valid if the material is installed under the guidelines of the ICPI (www.ICPI.org), The NCMA (www.ncma.org) or the Belgard Installation Guideline Manual. Improper installation voids this warranty. This warranty is for residential applications only and does not apply to commercial applications. It is recommended that the job be installed by a Belgard Contractor Program participant who guarantees their workmanship for a minimum of 3 years from the date of install. For warranty service, contact Belgard at 1-877-BELGARD. A service representative will investigate your claim within 10 business days. If the Belgard product fails to meet the specifications, Belgard will replace the defective product at no charge. Color matching cannot be guaranteed. Belgard will not be responsible for any replacement labor, consequential damages or incidental damages. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state. Some states do not allow for the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

For specific information regarding warranty coverage and exclusions in regards to the Elements™ and Porcelain Paver products, please visit: Belgard.com/Warranty.
